

Meet Your Instructor:
Jennifer

About Me: Background/ Relevant Experience:

I am a first generation college student that loves to learn and explore new traditions and cultures. I love to be outdoors going on hikes, canyoneering and camping whenever possible. I am a second year Biomedical Engineering student at the University of Utah. I started working at Play-Well in 2017 and am super excited to get to know my LEGO students! Hablo español.

What do you love about working with Play-Well?

I love that I get the opportunity to teach kids engineering concepts as well as being able to learn from them!

What is your favorite Play-Well Project?

The Merry-Go-Round project is my favorite!

What Do You Love to Geek Out About?

I love to learn new languages and cultures. You will likely find me at different cultural festivals. I also love to learn about new technology in the medical field.
